*Voice Mail package must be set to allow this capability.

Using Voice Mail to Email

1. Check your email as you normally would.
2. When you get a voice mail message, you will receive an email from voicemail@polarcomm.com delivered right to your inbox. The message will have an attachment.
3. Open the attachment and your media player will play the message.
4. If desired, save the attachment on your PC.
5. Follow the links in the message to save or delete the message from the Voice Mail system.
6. For more information visit our website at www.thinkpolar.com.

If you have a new message in your mailbox the phone line will produce a stutter tone when you pick it up. After you log in to your mailbox the stutter tone goes away. A light may also come on if your phone has a message waiting indicator light.
